

EI2010

FELIXCAN
ANIMAL ID

FX-Pet Reader

DESCRIPTION

- The FX-Pet Reader has been thought out and designed along with vets. This reader offers the highest quality performance with small dimensions.
- The size and its ergonomical shape prevents the animal from getting frightened and its easy use.
- The FX-Reader can read electronic ID devices of the FDX-b and HDX type according to norm ISO 11785.
- The reader is also able to read electronic ID devices FDX-A marketed before 1996 (Destron, Avid, AEG).
- This reader can store more than 500 electronic ID devices in its memory and subsequently transfer this information to a computer by means of a communication cable(included.)

WHAT IS IN THE PACKAGE

The case in which the FX-Pet Reader is included comes with the following components:

- FX-Pet reader
- Carry-on case
- Battery 9V PP3. Power Supply
- Communication cable
- PC Data Transfer Software "Datatransfer"
- Instruction Manual
